WORK EXPERIENCE

Full Stack Developer Intern
Levelon

04/2023 - Present   *Bangalore,India*

Achievements/Tasks

- Designed and implemented RESTful APIs, enabling seamless communication between the frontend and backend systems.
- Developed Login, Signup, Mentor, and Seeker Onboarding pages with authentication functionality to ensure secure management of user accounts.
- Implemented robust security measures such as OTP verification, password hashing, and encryption techniques to safeguard sensitive user information and enhance data protection.

Full Stack Developer
DevHack 4.0

03/2023 - 04/2023

Parsec Hackathon organized by IIT Dharwad

Achievements/Tasks

- Build a platform which connects people with similar interests and skills to collaborate on a particular project, share knowledge and learn from each other.
- This is MERN stack based project and I worked on pages like post project, comments and in backend I build login, sing up pages and all pages are user authenticated.
- https://github.com/Terminal-Titans/collabhub

ACHIEVEMENTS/CERTIFICATES

4 STAT AT CODECHEF

5 STAR AT HACKERRANK

LEETCODE/GEEKS FOR GEEKS ↗
I am a 3 Star coder at Leetcode and solve over 450+ questions and solve over 300+ question at geeksforgeeks

AlgoUniversity ↗
I have secured position rank 1 (non CS) in Code Rush Coding Challenge hosted by AlgoUniversity.

Flipr Hackathon 9.0 ↗
Flipr Hackathon 9.0 Certificate in this hackathon we build a full stack web application.

EDUCATION

Indian Institute of Information Technology, Dharwad
Karnataka

12/2020 - Present   *CGPA- 8.2*

Course

- B.Tech

SKILLS

Web Development | Data Structures | Algorithms

React JS | Next JS | MongoDB | Git | Github

Figma | MYSQL | Tailwind | Bootstrap | WordPress

Node JS | Express JS | SASS | Material UI | DBMS

PERSONAL PROJECTS

FarmsConnect
One Place For All The Farmers

- I build this Project in MERN stack and connect a chatbot which is linked with chatgpt-3 API so farmers/ User get instant support for their queries.
- I build register, login pages with authentication and logout, forgot password pages with OTP verification. Add a location based weather forecast and live news pages so that farmer aware of live weather and latest news related to agriculture.
- In this project farmers can create an NFT of the contract as a proof of transaction and consumers can purchase those tokens. This is a platform which brings transparency between farmers and consumers and provide more benefits to farmers.
- https://devfolio.co/projects/farmsconnect-3be3
- https://github.com/FarmsConnect

Jordan
Platform for buy and sell second hand shoes and watches

- This is a MERN stack based project in this platform users can make their account and upload products they want to sell with information and they also edit and delete product and details here all pages have authentication system.
- Other user can contact them if they want to buy products. I am storing users information in MongoDB and I also used Redux in this project.
- https://devfolio.co/projects/jordan-8224
- https://github.com/MONU8OO8/Jordan

Weather-Forecast-website
Location based weather forecast

- https://weatherforecast-nu.vercel.app/
- https://github.com/MONU8OO8/Weather_forecast
- This website shows latest weather forecast details. I fetch latest data from weather API using Next JS and Tailwind CSS. This is a responsive application.

Portfolio-Website
Next JS based Portfolio

- https://monu-personal-web-site.vercel.app/
- https://github.com/MONU8OO8/Monu-Personal-WebSite
- This is my personal portfolio website with amazing design and I connect a working contact form and use slug for dynamic route with Next JS and use Node JS, Tailwind CSS. This is a responsive design website.
